

Réécrivez l'expression en utilisant la propriété distributive de la multiplication, puis résolvez.

Réponses

1) $3 \times (3 + 5)$

Distributive Property_____
Answer

1. _____

2) $6 \times (7 + 8)$

Distributive Property_____
Answer

2. _____

3) $8 \times (6 + 4)$

Distributive Property_____
Answer

3. _____

4) $4 \times (4 + 8)$

Distributive Property_____
Answer

4. _____

5) $8 \times (6 + 8)$

Distributive Property_____
Answer

5. _____

6) $2 \times (4 + 3)$

Distributive Property_____
Answer

6. _____

7) $2 \times (3 + 7)$

Distributive Property_____
Answer

7. _____

8) $9 \times (4 + 4)$

Distributive Property_____
Answer

8. _____

9) $9 \times (3 + 4)$

Distributive Property_____
Answer

9. _____

10) $6 \times (7 + 6)$

Distributive Property_____
Answer

10. _____

Réécrivez l'expression en utilisant la propriété distributive de la multiplication, puis résolvez.

$$1) \quad 3 \times (3 + 5) \quad \frac{(3 \times 3) + (3 \times 5)}{\text{Distributive Property}} \quad \frac{24}{\text{Answer}}$$

$$2) \quad 6 \times (7 + 8) \quad \frac{(6 \times 7) + (6 \times 8)}{\text{Distributive Property}} \quad \frac{90}{\text{Answer}}$$

$$3) \quad 8 \times (6 + 4) \quad \frac{(8 \times 6) + (8 \times 4)}{\text{Distributive Property}} \quad \frac{80}{\text{Answer}}$$

$$4) \quad 4 \times (4 + 8) \quad \frac{(4 \times 4) + (4 \times 8)}{\text{Distributive Property}} \quad \frac{48}{\text{Answer}}$$

$$5) \quad 8 \times (6 + 8) \quad \frac{(8 \times 6) + (8 \times 8)}{\text{Distributive Property}} \quad \frac{112}{\text{Answer}}$$

$$6) \quad 2 \times (4 + 3) \quad \frac{(2 \times 4) + (2 \times 3)}{\text{Distributive Property}} \quad \frac{14}{\text{Answer}}$$

$$7) \quad 2 \times (3 + 7) \quad \frac{(2 \times 3) + (2 \times 7)}{\text{Distributive Property}} \quad \frac{20}{\text{Answer}}$$

$$8) \quad 9 \times (4 + 4) \quad \frac{(9 \times 4) + (9 \times 4)}{\text{Distributive Property}} \quad \frac{72}{\text{Answer}}$$

$$9) \quad 9 \times (3 + 4) \quad \frac{(9 \times 3) + (9 \times 4)}{\text{Distributive Property}} \quad \frac{63}{\text{Answer}}$$

$$10) \quad 6 \times (7 + 6) \quad \frac{(6 \times 7) + (6 \times 6)}{\text{Distributive Property}} \quad \frac{78}{\text{Answer}}$$

Réponses

1. $\frac{(3 \times 3) + (3 \times 5)}{\quad}$ **24**
2. $\frac{(6 \times 7) + (6 \times 8)}{\quad}$ **90**
3. $\frac{(8 \times 6) + (8 \times 4)}{\quad}$ **80**
4. $\frac{(4 \times 4) + (4 \times 8)}{\quad}$ **48**
5. $\frac{(8 \times 6) + (8 \times 8)}{\quad}$ **112**
6. $\frac{(2 \times 4) + (2 \times 3)}{\quad}$ **14**
7. $\frac{(2 \times 3) + (2 \times 7)}{\quad}$ **20**
8. $\frac{(9 \times 4) + (9 \times 4)}{\quad}$ **72**
9. $\frac{(9 \times 3) + (9 \times 4)}{\quad}$ **63**
10. $\frac{(6 \times 7) + (6 \times 6)}{\quad}$ **78**
