Utilisez la propriété distributive pour résoudre chaque problème.

Ex) 4×14 = (4×9) + (4 × $\underline{5}$) =
           36   +   20   =   56

Ex. _____ **56** _____

1) 13×9 = (4×9) + (___ × 9) =
                        +   _____

1. _____

2. _____

2) 6×13 = (6×8) + (6 × ___) =
                        +   _____

3. _____

3) 7×15 = (7×5) + (7 × ___) =
                        +   _____

4. _____

5. _____

4) 13×4 = (3×4) + (___ × 4) =
                        +   _____

6. _____

7. _____

5) 7×16 = (7×6) + (7 × ___) =
                        +   _____

8. _____

9. _____

6) 13×5 = (6×5) + (___ × 5) =
                        +   _____

10. _____

7) 16×7 = (6×7) + (___ × 7) =
                        +   _____

8) 18×5 = (8×5) + (___ × 5) =
                        +   _____

9) 14×9 = (6×9) + (___ × 9) =
                        +   _____

10) 9×12 = (9×9) + (9 × ___) =
                        +   _____

Utilisez la propriété distributive pour résoudre chaque problème.

Ex) 4×14 = (4×9) + (4 × 5) =
36 + 20 = 56

Ex. ____ **56**

1) 13×9 = (4×9) + (9 × 9) =
36 + 81 = 117

1. ____ **117**

2) 6×13 = (6×8) + (6 × 5) =
48 + 30 = 78

2. ____ **78**

3) 7×15 = (7×5) + (7 × 10) =
35 + 70 = 105

3. ____ **105**

4) 13×4 = (3×4) + (10 × 4) =
12 + 40 = 52

4. ____ **52**

5) 7×16 = (7×6) + (7 × 10) =
42 + 70 = 112

5. ____ **112**

6) 13×5 = (6×5) + (7 × 5) =
30 + 35 = 65

6. ____ **65**

7) 16×7 = (6×7) + (10 × 7) =
42 + 70 = 112

7. ____ **112**

8) 18×5 = (8×5) + (10 × 5) =
40 + 50 = 90

8. ____ **90**

9) 14×9 = (6×9) + (8 × 9) =
54 + 72 = 126

9. ____ **126**

10) 9×12 = (9×9) + (9 × 3) =
81 + 27 = 108

10. ____ **108**
